

Muhammad Ali Ahson

AI Systems & Backend Engineer

Islamabad, Pakistan | PKT (UTC+5)

aliahson56@gmail.com

portfolio-ahson.vercel.app

I take AI prototypes that stalled before launch and rebuild them into systems your team can run, secure and afford.

Days to 1 hr

Proposal turnaround, replacing a manual process

100

Concurrent requests served on one existing GPU

24

Permission cases mapped before launch, audit-ready

+60%

Retrieval efficiency over single-path RAG

FIGURES ARE MY OWN MEASUREMENTS, NOT AUDITED BENCHMARKS.

WHAT I DO

Production readiness audit

A written, prioritised view of what stops your system going live.

1-2 WEEKS

Backend and API development

APIs, data models and integrations that hold under load.

4-10 WEEKS

Security, auth and deployment

Role-based access, audit trails, repeatable releases.

2-6 WEEKS

Codebase rescue and refactor

Structure your team can change without fear. Same behaviour.

3-8 WEEKS

LLM, RAG and agent development

Answers you can defend, grounded in your own data.

4-10 WEEKS

Performance and cost optimisation

More traffic on the hardware you own, cost you can see.

2-4 WEEKS

HOW TO START

Production readiness audit

Fixed scope, 1-2 weeks. Start here.

Project build

Fixed scope. Most run 4-10 weeks.

Monthly retainer

Rolling, 2 or 4 days a week.

HOURS I GUARANTEE

Australia (AEST)

1:00pm - 5:00pm

UK (GMT)

9:00am - 1:00pm

US East (EDT)

8:00am - 11:00am

OUTSIDE THESE: ASYNC, REPLY IN ONE BUSINESS DAY

TERMS

IP transfers to you on final payment / NDA signed on request, before access / Invoiced in USD or AUD / 30 days support after handover

DELIVERED IN

Engineering consultancy / Healthcare / Financial services / Agriculture / Media / Document-heavy operations

Next step: a 30-minute call, no charge.

You leave with a written view of what is wrong and what it takes to fix.
